Clarification of the Seat Belt Law from 1968

Peter Hyland has sent us a copy of the legislation pertaining to seat belt installation. The relevant sentence states: "This subdivision does not, however, require installation or maintenance of safety belts where not required by the laws of the United States applicable to the vehicle at the time of its initial sale." In other word, you don't have to have them on your A, but your editors think there still a darn good idea; ask anyone who has been in an accident in an A. (Yes, Model A's do get in accidents.)
