MODEL A FORD CLUB-ORANGE CO. CHAPTER

Nov. 1963

OCT 20th ROUNDUP ACKNOWLEDGEMENT

You may think me a bit biased on this subject, but I do believe you could label our roundup a grade A success. Success also seems to be a word to describe a genial guy named Roland Ferris, who really added that extra spark needed to fire up this event. With the kids and oldsters alike he was a real hit. As for his running this event, starting many months ago, we couldn't have done it without him.

And how do you say thanks to a team? Do you say it en masse, or do you just single out these people who worked so hard and so well together? Our club gives no remuneration for a job well done, but heart-felt thanks can surely be meted out to the following:

Roland Ferris, Les Scott, Tillie and Harold Jones, Sam Castillo, Charlie Downs Jr., Gene Howell, Mel Howell, Rosemary and Andy Baudino and of course our chapter president, Bill Vaughn. In case you weren't there Gene(Ace)Howell scooped up two firsts and two seconds in the events. I'm sure Gene Howell relinquished his trophy rights for only one reason; he knows he's Orange Counties top model A driver and surely we all agree. Seems like everyone either went away with a trophy or a prize of some kind. The lucky person whose name appeared as the winner of the T.V. was Mrs. Glen of Placentia, many, many thanks from Mrs. Glen and family. The music by the Viscaynes was really great, lets hear more from these swell fellows. All the competitive events came off without a hitch, and Rosemary Bodenus was a real doll in her authentic clothes. Again our acknowledgement of trophies, parts, etc., from our good friends: George Dunton Ford of Santa Ana, Quentin Hilliker, Flying A, 1060 Katella Anaheim, Antique Auto Parts of El Monte, Hollywood Antique Ford Parts, also Louis Malucci of El Monte, and so it goes, our first annual Roundup is over, but will it be forgotten?

Certainly not by yours truly and the throngs who attended. Lets look forward to next year and our second annual Roundup, see you all there.

OCT 10th MEETING

Jerry Kill, (The Mort Sohl of the Model "A" set) delivered a jocular but informative talk on water pumps and radiators. Thanks loads Jerry, most enjoyable. Rich Hastings rounded out his rare wardrobe with a "GIFT" from Roland Ferris and the Baudinos. The article is unmentionable, but we can say the B.V.D. has been replaced by F.O.R.D.

Just before the meet, complimentary adjectives were heard floating through the group huddled outside the club house, as Harold and Tillie Jones unveiled their efforts in a '31 Deluxe Coupe. Harold beamed proudly as he flipped on his domelight to spotlight his beautiful green mohair interior.

The usual gang attended and hope to see all of you at the next meeting.

NOV 14th MEETING

The meeting will feature Mr. Jim Ryner of the Restorer Fame. He will give us a rundown on the history of the restorer etc., also Sam Castillo has graciously consented to bring his 90 slides of the roundup and Rich (F.O.R.D.) Hastings said he would bring movies of the treasure hunt, attend and join the fun.

FUN FAIR PARADE PLACENTIA NOV 2

Those of you who rode or drove the eleven model A's in this parade can feel very proud, not merely because you were showing off your pride & joy, but more important you were helping the Lions Club perform some really wonderful civic deeds. As you know, these acts of kindness take on various

forms, all of which create service to the community.

These Lions thanked us profusely, for our small service, but indeed it was a great privilege to aid in our own humble way.

Our banner carriers, Betty Brown and Carolyn Fish, certainly added that classy touch to our tidy group. Also the Jones' '31 Deluxe Coupe served as a perfect representative to lead the eleven (11) cars.

Who was seen leaving the parade route in a flurry for the swiftest "Dollars worth of regular" you've ever seen? We won't mention who it was, but I think he lost a few more hairs in the operation.

THRIFTY HINT

Have any scrap metal laying around the yard? Radiator cores, batteries, scrap metal, can be sold at Starrow Metals Co., in Buena Park and other local scrap dealers.

CLASSIFIED ADS

WANTED

Bows, Windshield Header Hardware, and attaching folding arms for 1930 Cabriolet, all or part.
